

25Live Administration Utility - Where Did It Go?

CollegeNET plans to retire the Administration Utility as a separate entity as part of software migration and upgrades. In order to do this, we will completely redistribute its functionality between [25Live System Settings](#), [Series25 Group Administration](#), and other tools. Please refer to the guide below for instructions on how to find these settings in their new homes.

Some elements are not planned for migration as their usage is being phased out or replaced by CollegeNET best practices. Please contact CollegeNET if you have a use case which you believe cannot be supported without these features.

Security Management

Setting	New Home	Status	Notes
Manage Functional Security Groups	Group Administration > Setting Security For One Group	Complete	Also includes setting security for multiple groups, creating/deleting groups, etc.
Remove Locks	25Live System Settings > Lock Table / Pending	Complete	
Set Object Security Status	N/A	N/A	Migration not planned – Object Security is now enforced by default.
Event Object Security	Series25 Group Administration	Planned	
Cabinet and Folder Object Security	Series25 Group Administration	Planned	
Location Object Security and Assignment Policy	Group Administration > Editing Object Security and Assignment Policy	Complete	Assignment policy exceptions to be replaced with Assignment Windows .
Resource Object Security and Assignment Policy	Group Administration > Editing Object Security and Assignment Policy	Complete	
Organization Object Security	Group Administration > Editing Object Security and Assignment Policy	Complete	
Report Object Security	Group Administration > Editing Object Security and Assignment Policy	Complete	
Security Defaults	Series25 Group Administration	Planned	

Event Management

Setting	New Home	Status	Notes
Cabinet and Folder Management	25Live System Settings	Planned	Also see "Security Management" on this page.
Data Inheritance	N/A	N/A	Not planned for migration; functionality is being phased out.
Event Deletion (Bulk)	25Live	Planned	
Back-to-Back Binding	LYNX > Back-to-Back Binding	Complete	
Export to SIS	LYNX > Reviewing and Exporting a Section Export Extract Set	Complete	
Event Type Hierarchy	25Live System Settings	Planned	
Event Master Definitions	25Live System Settings > Working With Master Definitions	Complete	
X25 Export	X25 Analytics > Projects and Snapshots	Complete	Export to previous version of X25 not planned for migration.
Series25 Import Messages	LYNX > Accessing Import and Export Messages	Complete	Import messages for events imported through other methods are still being migrated.
Import CSV File	Series25 Data Import Tool	Planned	

Object Management (Locations, Resources, Organizations, Contacts)

Setting	New Home	Status	Notes
Object Creation	25Live	Planned	Contacts and organizations can be created within the event form as part of creating an event. Contacts can also be created in Series25 Group Administration when Adding Users to Security Groups .
Object Deletion	25Live	Planned	

Object Editing	25Live > Viewing Location Details	Complete	Object editing is available for all object types with appropriate permissions. Also see "Security Management" on this page.
Bulk Editing	25Live > Bulk Editing Locations	In Progress	Bulk editing is currently only available for locations.
Master Definitions	25Live System Settings > Working With Master Definitions	Complete	
Remove Pending Reservations	25Live System Settings > Lock Table / Pending	Complete	
View Signed In Users	25Live System Settings	Planned	

Report Management

Setting	New Home	Status	Notes
Report Creation	25Live Reports > Reports Admin	Complete	
Report Edit/Delete	25Live Reports > Reports Admin	Complete	Also see "Security Management" on this page.
Scheduling Reports	25Live Reports > Reports Admin	Complete	

Other Functionality

Setting	New Home	Status	Notes
Image Management	25Live System Settings	Planned	
Pricing Management	25Live System Settings	Complete	Permissions have been simplified in Series25 Groups Administration; individual elements such as rate groups and tax schedules no longer require separate permissions to edit.
Schedule25 Optimizer	X25 Analytics > Schedule25 Optimizer Overview	Complete	An X25 Analytics license is not required to use the Optimizer in this application.
Publisher Management	25Live System Settings	Planned	
SIS Import /Export Settings	N/A	N/A	Not planned for migration because these settings do not affect LYNX users. We will work directly with any schools still using older SIS interfaces at the time the Administration Utility is retired.
SSO Authentication Settings	Group Administration > Single Sign On Authentication Options	Complete	
Email Notification Settings	N/A	N/A	We plan to expand functionality of Event Save Emails to support the use cases covered by this functionality.
